Gastroenterology Update

Gastrointestinal Diseases of the Elderly, co-sponsored by:

University of Miami School of Medicine
Mount Sinai Medical Center of Greater Miami

held at Mount Sinai Medical Center in Wolfson Auditorium

Course Co-Directors: Jamie S. Barkin, M.D., and Arvey I. Rogers, M.D.

Approved for Category I credits 7.5 AMA and AAFP Nursing Contact Hours 7.5

Registration Fees: Physicians — $65; Nurses — $35

Guest Faculty: L.J. Brandt, M.D.; Peter B. Cotton, M.D.; John Galambos, M.D.; Thomas R. Hendrix, M.D.; Peter R. Holt, M.D.; Dennis M. Jensen, M.D.

For information contact Department of CME, Mount Sinai: (305) 674-2311, 4300 Alton Road, Miami Beach, Florida 33140.

INFORMATION FOR AUTHORS

The Journal is the official publication of the Florida Medical Association, Inc. Its purpose and scope include not only the dissemination of scientific information but also communication of FMA activities and reportage of other subject matter relevant to the practice of medicine. Hence, the editors encourage submission of scientific papers (investigative studies, reviews, new technology, case reports); discussion of medical history and ethics; and articles dealing with socieconomics, governmental, and legal issues as related to medicine.

Manuscripts should be submitted to R.G. Lacsamana, M.D., Editor of *The Journal of the Florida Medical Association, Inc.*, P.O. Box 2411, Jacksonville, FL 32203, in original and three duplicate copies. Copies should be typewritten and double spaced.

Author Responsibility: The author is responsible for all statements made in his work, including changes made by the copy editor. Manuscripts are received with the understanding that they are NOT simultaneously under consideration by any other publication. Rejected manuscripts are returned to the author. Accepted manuscripts become the property of *The Journal* and may not be published elsewhere without permission from the author and *The Journal*.

Each of the following should begin on a new page: abstract, first page of text, legends for illustrations, tables and acknowledgments. Each page should include a running head and surname of lead author.

Abstract: All scientific manuscripts must include a 150 word, MAXIMUM LENGTH, abstract which is a factual (not descriptive) summary of the work. This replaces the summary and precedes the article.

Titles should be short, specific, clear and amenable to indexing.

Author Information: List affiliations for each author. If author's present affiliation is different from affiliation under which the work is done, both should be given. The mailing address of the lead author should also be included.

References: The following minimum data should be given: names of all authors, complete title of article cited, name of journal abbreviated according to *Index Medicus*, volume number, page numbers and year of publication. All references must be cited in the text and should be arranged according to order of citation and numbered consecutively. If references are too numerous, the editors reserve the right to eliminate with notation: "References are available from the author(s) upon request."

All accepted manuscripts are subject to copy editing. Authors receive a galley proof for approval before publication. NO changes are accepted after galley is returned. Forms for ordering reprints are included with the galley proofs.

Illustrations: Illustrations are all material which cannot be set in type such as photographs, line drawings, graphs, charts and tracings. The entire cost of reproducing color illustrations is the responsibility of the author(s). Omit all illustrations which fail to increase the understanding of the text. Drawings and graphs should be done with India ink on white paper. Select overall proportions appropriate for material presented and sufficient for reduction, if necessary. Each illustration should be numbered and cited in the text. Legends should be typed and double spaced on a separate sheet of paper. The following information should be typed on an adhesive strip and affixed to the back of the illustration: figure number, title of manuscript, name of author and arrow indicating the top. Tables should be self-explanatory and should supplant, not duplicate, the text. Number tables consecutively, beginning with 1. Each table must have a title.

Permission letters must accompany patient photos whenever there is a possibility of identification. Prepare in accordance with state laws and specify authority to publish.

Letters submitted for publication should be designated "For Publication."

When received, the lead author will be sent an acknowledgment of receipt and a copyright agreement which MUST be signed by all collaborators. Should the article fail to be accepted for publication, the agreement will be returned.
